Whitacre Heath, 22 February 2026

A 9.5 mile circular walk which began from The Swan in Whitacre Heath. On this bright sunny morning, five of us followed the Centenary Way which took us through a very wet and muddy Lea Marston Country Park which in turn led to Kingsbury Water Park where we found a very convenient picnic bench for lunch. From the water park, we followed the Heart of England Way through Kingsbury village on to and across a number of fields - very hard going due to the ankle deep mud.
